

REMARKS

Reconsideration of the above-referenced application is respectively requested in view of the above amendments and these remarks. Claims 1-17 and 22-23 are currently pending.

In the Office Action, claims 1-17 and 22-23 were allowed. Applicants note with appreciation that the subject matter of these claims has been allowed. Claims 18-21 are rejected under 35 U.S.C. § 103(a) as being unpatentable over United States Patent Application Publication No. 2002/0001315 to Morimoto in view of United States Patent No. 6,243,395 to Fujimori. Applicants have deleted claims 18-21. The Applicants respectfully disagree with the Examiner's rejections set forth in the present Office Action. However, desiring to expedite the issuance of a patent for the present invention, Applicants have cancelled the rejected claim to put the Application in condition for allowance. No remaining grounds for rejection or objection being given, the claims in their present form are asserted to be patentable over the prior art of record.

As the Applicants have overcome all substantive rejections and objections given by the Examiner and have complied with all requests properly presented by the Examiner, the Applicants contend that this Amendment, with the above discussion, overcomes the Examiner's objections to and rejections of the pending claims. Therefore, the Applicants respectfully solicit allowance of the Application. If the Examiner is of the opinion that any issues regarding the status of the claims remain after this response, the Examiner is invited to contact the undersigned representative to expedite resolution of the matter.
